OLD ENGLAND.

By ARGUS CENTOCULI, *Inſpector-General of* Great-Britain.

SATURDAY, JANUARY 28, 1749. [Nº. 248.]

Appriz'd Jove's *Council, by the Voice of Fame,*
How ſtood the Learn'd of Iſis *and* of Cam.
To fill a Vacancy in This they ſend,
His own, his Fam'ly's, and the Nation's Friend.
To make a wiſh'd for Vacancy in That,
They ſend the courſing Greyhounds *of the State.*
In proſtituting thus the Vain *they pleas'd,*
In thus proſcribing the Revengeful *eas'd.*

THE Effect of Precipitation and Hurry appears evident in moſt of thoſe public Addreſſes, which we ſee printed in the *Gazette*; and looks as if the People were taken unprepared, and ſurprized into them by the impatient Dictates and Expectation of Power. A great many of theſe Addreſſes, eſpecially ſome of the leading ones, are apparently defective, in my humble Opinion, as well as partial. They can't be ſaid to contain the Sentiments of the Many, but rather of the Few in the Secret. I will not triſle away Exceptions upon Words, and deny that the *Compliment of the Lord-Mayor and Aldermen of London*, was an Addreſs; for a Compliment of that kind is undoubtedly an Addreſs. Compliment and Addreſs on Matters of Gratulation, mean but the ſame Thing, and are no more than an Aſſemblage, if I may be allowed the Expreſſion, of obliging and reſpectful Words, thrown into Form and directed to any Perſon or Perſons. Tho' Petitions and Addreſſes are frequently ſynonimous; yet I can't call a congratulatory Addreſs a Petition, becauſe it requeſts no Favour or demands any Redreſs againſt Grievances, but only expreſſes a generous Satisfaction in the Conduct or Welfare of the Perſon addreſſed.

Addreſſes to the Throne run generally, if not always, from Corporate Cities and Boroughs in their *Corporate Capacities*, and are expreſſive of the general Aſſent of a City or Town. The *London Compliment* is not in a *Corporate Capacity*, as the *Common Council* are no Parties to it; nor were, as I am credibly informed, as much as conſulted upon the Occaſion. How this extraordinary Flight of the *L*d-M*y*r*, with his *Recorder* and a few Aldermen, came to be taken, I can't pretend to ſay; unleſs it was apprehended, that the Majority of the C*m*n C**l could not have been brought into an Acquieſcence of praiſing the miniſterial *Pig in the Poke*.

We will ſuppoſe a Caſe, for Inſtance, that the City of *London* had a Matter in Controverſy with *Briſtol*; and that the Lord-Mayor, as ſupreme Magiſtrate, had taken a Journey with ſome of his Officers, in order to negociate an Accommodation between the Two Cities; and that it might be noiſed about at his Return of *ſomething* having been *indefinitively* done. Would it not have been a moſt audacious Inſult on his Lordſhip's Underſtanding to have had a Compliment obtruded upon him, at all Events, by a Livery Company or two, before he had well taken off his Boots, and given the City any Manner of Account of it; more eſpecially, if his conſcious Officers had pocketed up the Terms, 'till they could garble out a *Common-Hall* ſuitable to their Purpoſe, to lay them before for Approbation? How ridiculous muſt ſuch a Compliment have been, and offenſive not only to his Lordſhip, but to every honeſt Mind, unbiaſs'd with the greaſy Daubings of Adulation? and ſtill the more, if it ſhould turn out that his Lordſhip's honeſt Endeavours to procure his Fellow-Citizens juſt and adequate Satisfaction, had been croſs'd and fruſtrated by the Corruption of his Officers, who had betray'd both him and the City?

Thoſe who appear ſo over-zealouſly diſpoſed to approve and praiſe what they know nothing of, are generally the readieſt to deceive and betray; which brings into my Mind the Fate of our *James* II. who was complimented with public Addreſſes out of his Throne and Kingdoms. The little Confidence that is to be put in Addreſſes, the unſubſtantial Comfort and Dependence that are to be repoſed upon Addreſſers of this ſort, is evident to every reflecting Mind, from that Series of Hypocriſy which amuſed and miſguided the Sovereign then on the Throne, who was taught by his Miniſters to conſider them as the real Sentiments of his People, whom he had the Mortification to ſee very ſoon afterwards compliment his Succeſſor, in a Manner directly contradictory, and full of ſevere Invectives againſt himſelf, once the Object of their ill-grounded Praiſes.

How hard is the Fate of Kings, and uneaſy their Situation! They are frequently betray'd by their Miniſters into unpopular Tranſactions, and then by a miniſterial Influence abuſed by their People with an inſincere Approbation of the Meaſures they privately diſlike. Miniſters ought to be very cautious how they play ſuch a double Trick, in deceiving the Throne and the People, for the future; as, in this Nation, we are come into a better Way of Thinking than the Violences of former Times would admit. We can now diſtinguiſh between the Miſleaders and the Miſled. We know how to ſeparate the Miniſter from the Throne, and eſtabliſh the laſt by the Puniſhment of the firſt.

Nor can this partial Compliment be properly called the *London* Addreſs, as that would imply the moſt conſiderable Inhabitants concerned in it, who are undoubtedly the Merchants. Theſe Gentlemen make no Party among the Addreſſers. Surely, if it had been proper to ſay any thing as to the War or Peace, they ought to have been called into a Conſultation on ſo public an Occaſion; not only as they compoſe the moſt numerous, moſt opulent, and greateſt Body of People in the City, but as they were more particularly intereſted in the War, and conſequently in the Events of Peace, above all other People in the Kingdom. As they ſtood by the Throne ſo firmly in the Day of Diſtreſs; the Thr* doubly diſtreſs'd by Rebellion in the diſtant Parts of the Nation, and by Mutiny, Diſobedience, and factious Reſignations within the R**l Doors! I ſay, as the Merchants ſhewed themſelves the K*'s real Friends, not by Addreſſes only, but likewiſe by Facts and open Purſes, they had added Weight to the *Compliment*, and given it a Luſtre over the Nation: But, I doubt, there was ſome Reaſon to apprehend that theſe People of Weight and Buſineſs would, by an over-ſcrupulous Inſpection into Things, have procraſtinated the Application, 'till they were properly warranted by Facts to ſay ſomething that, at leaſt, would not offend or abuſe the great Object of their Addreſs.

I think the *Briſtol* Addreſs is likewiſe imperfect, for tho' it is a Compliment in the *Corporate Capacity* of the City, yet the wealthy *Body of Merchants*, who are as conſiderable there in Proportion as their Brethren are in *London*, do not appear to have had any Share in it; for ſurely they deſerved, from their Weight and Importance, to be particularly mentioned; and therefore can hardly be thought to be huddled in, undiſtinguiſhed, with the lower Claſs of Citizens, under the Word *Commonalty*. Whether they were conſulted, I know not; or whether it was not rather thought prudent to ſteal over a Body of Men, who had no Reaſon to be pleaſed with the Politics and Conduct of our C——t-Leaders, and therefore might refuſe their Concurrence 'till ſuch Time as they could be aſſured of their Merit, as to the Matter to be addreſſed upon. But however both the Addreſſes of theſe two great Cities, or rather the Addreſſes of particular Perſons in them, have found their Way to the Th*, notwithſtanding the apparent Partiality and Deficience of each: That of *London* was not ſent back to be perfected, by the taking in of the *Common Council*; nor was that of *Briſtol* heſitated upon, for Want of the Merchants. Theſe paſt the Touchſtone of miniſterial Approbation, and were graciouſly received.

But another Addreſs, or rather an intended one, was not ſo fortunate in it's Progreſs. It met with ſuch Remarks, Obſtructions, Obſervations, and Debates in the Way, as to occaſion it to fall ſhort of the great Object of it's Purpoſe; not ſo much, as 'tis inſinuated, for any Matter that was in it, as what was *not in it*; which is the more extraordinary as, 'tis ſaid, the *learned Heads* that conducted it, had the Precaution to conſult a courtly Pulſe or two how they ſhould comport themſelves upon the Occaſion, as a great Diſpleaſure had been conceived againſt a *particular Perſon*, who had the Honour to fill up a *ſecondary Station* among them. They received ſome Hints, and made them the Rule of their Conduct; and as the *obnoxious Member* of their Body was objected to, they very loyally paſt a Mark of Diſgrace upon him, by depriving him of any Share in the Honour of their Addreſs; inſomuch, that he was not as much as named among them.

As they had Reaſon to believe they had properly conformed, the venerable Heads of the *Body*, took a long Journey at a great Expence to preſent their *complimental Addreſs*, with their *noble Patron* in their Front, in order to ſupply the Want of his Deputy, or under Officer, which it ſeems is an Honour ſeldom uſed upon the like Occaſion: But ſurprized and ſhocked they were to meet with a Repulſe inſtead of a gracious Reception, as they had not only endeavoured to conform to Inſtructions, but gone even beyond them towards making themſelves agreeable. The *Zanies* of the C*t had bar'd up the Avenues of Acceſs, by Order of a *Brace of State-Converts*, who were deſirous, on this Occaſion, to convince the doubting Mind of R***ty of the Sincerity of their late Change from one *Extream* to the other; and therefore took the whole *Honour* of this *popular* Affair upon themſelves, and bid the A***rs, with their *noble Principal* at their Head, *Begone!*——and they did go, after making their public Appeal to the World of the Innocence and Sincerity of their Intention. However they might have differed privately in their Minds, as to Party-Affairs, either before they ſet out on their fruitleſs Journey, or in the Way up, they returned, *with one and the ſame Mind, invariably reſolved on one and the ſame Conduct, as to the Manner and Form of addr**g for the future.*

As

As our *State Converts*, late in Occaſion as well as late in Life; for I think one had conſiderably paſs'd his *Grand Climacteric*, before his Virtue could ſurmount the ſtubborn Prejudices of Education, Habit, and Family Attachment: I ſay, our *Converts* were ſo apprehenſive of *learned Ambiguities* in the A*dr*ſs, that they thought none more capable of ſifting them thoroughly than themſelves. Hence the *Two Brothers* were excluded from this profound Diſcuſſion, as it was not a little beyond their Cut; and probably, becauſe the Honour of the Succeſs, if they had been admitted, might have been imputed to the Ingenuity of *Lapis*. The *Converts*, after invoking the Genius of the famous Sir *A B C* of the *Craftſman*, fell to Work; and as that prodigious Sage penetrated into a Diſcovery of Treaſon under the Gilding of Mr. *Ward*'s Pill, our *Converts* found enſnaring Diſaffections lurking in the Crevices of every Phraſe throughout this ſubtile A**s; and a high Affront and Indignity in ſubſtituting Elegance of Language, nervous Senſe, coercive Aſſurances, and high flown Strains of Loyalty to the Perſon of the K*, in the room of courtly Compliments upon the Miniſters of Peace. We ſhall hear more of the happy Diſcoveries made by theſe great *Commiſſioners of Inſpection*, as ſoon as they make their Report; and 'tis hoped it will be a Warning to all future V* C***s, how they become raſcily buſy at El***s, and with impertinent Endeavours attempt to croſs the virtuous Purpoſes of the *Converted* at *B*d*d*.

To addreſs the Throne petitionarily for Redreſs of Grievances, is an undoubted Right of the Subject; and tho' an Addreſs of *Compliment* is only a Matter of Indifference, and may be omitted on one Side, or rejected on the other, without injuring Prerogative or Privilege; yet I think it is highly decent, if not an incumbent Duty, on every loyal Body of Subjects to ſalute their Sovereign with the Knee of Humility and Heart of Gladneſs, on his happy Return among them after ſo long an Abſence. Among all the Addreſſes that have been prefer'd on this laſt Occaſion, I muſt beg Leave to obſerve, that, in my humble Opinion, the *Carmarthen* Addreſs ſtands diſtinguiſhed in the Liſt, for Propriety of Matter, and a plain unadorned Sincerity of Expreſſion ſuitable to the Occaſion.

LONDON.

Monday printed Copies of the Definitive Treaty were delivered the Right Hon. the Houſe of Peers, and the Members of the Hon. Houſe of Commons.

Laſt Tueſday was argued in the Court of King's Bench a Motion upon a Rule to ſhew Cauſe why the Counſel for the King ſhall not be at Liberty to inſpect and take Copies of the Statutes of the Univerſities of Oxford; and Thurſday the Judges gave their Opinion, and the Rule was diſmiſſed.

Wedneſday the Judges met in the Lord Chief Juſtice Lee's Chamber in Weſtminſter-Hall and choſe their reſpective Circuits. viz.

Norfolk Circuit.
Lord Chief Juſtice Lee. Mr. Juſtice Wright.
Northern Circuit.
Lord Chief Juſtice Willes. Mr. Juſtice Barnett.
Midland Circuit.
Lord Chief Baron Parker. Mr. Juſtice Birch.
Home Circuit.
Mr. Juſtice Abney. Mr. Juſtice Denniſon,
Oxford Circuit.
Mr. Baron Clark. Mr. Baron Clive.
Weſtern Circuit.
Mr. Juſtice Foſter. Mr. Baron Legge.

Lieutenant Lardner is appointed a Captain in Colonel Lee's Regiment of Foot.

On Sunday Evening laſt died, on his Houſe in Serjeants-Inn in Fleet-Street, Matthew Concannon, Eſq; ſome time ſince Attorney General at Jamaica, and Author of ſeveral Pieces of Poetry.

On Wedneſday laſt died, at his Houſe at Hackney, James Lever, Eſq; one of the Directors of the Bank.

Wedneſday Morning died of a violent Fever, after a few Days Illneſs, Mr. Jacob Jacmar, an eminent wholeſale Haberdaſher, in Partnerſhip with Meſſieurs Haſſel and Voizin, in Mitre court in Cheapſide: The Bulk of his Fortune which is very conſiderable, comes to his Brother, Mr. Lewis Jacmar, of the Seal Office in the Temple.

Tueſday Morning died, of the Small-Pox, at his Lodgings at Hammerſmith, Mr. Simon Dainton, a young Gentleman of conſiderable Fortune in Derbyſhire.

We hear that the City of York intends to exhibit ſome very grand Fireworks, on the Proclamation of the general Peace.

Wedneſday the Juſtices met at the Town Hall in the Borough of Southwark, to examine into the Behaviour of the Perſons taken into Cuſtody at the Gaming Tables at Cuper's Bridge; when 17 were bound over to the next Quarter Seſſions of the Peace, for the County of Surry, and the Remainder ordered back to Jail, for Want of Securities.

On Tueſday laſt as ſome Servants belonging to the Right Hon. the Earl of Thanet, was coming up the River in a Hoy, with a large Quantity of Goods, &c. from his Lordſhips Seat at Hothfield in Kent, the Hoy ſunk and the Goods were loſt; but happily the People were all ſaved.

The late high Tides and bad Weather have done incredible Damage to the Shipping and ſmall Craft in the River. A Ship no farther of than Rotherhithe, belonging to Capt. Kelly, of Auſtin-Friars, overſet and ſunk; and ſeveral others forced from their Moorings, and greatly damaged; ſo that the Navigation of the River is greatly interrupted.

Wedneſday Morning about 10 o'Clock, Mr. Drake, a Gun Maker who had many Years kept an Houſe in Glaſs Houſe Yard in the Minories, ſhot himſelf and died immediately. He had eaten an hearty Breakfaſt, ſaying, that he was not indebted to any Man living. Another remarkable Circumſtance is, that on Tueſday Morning, he diſcharged the ſame Piſtol up the Chimney, with an Intent, as was ſuppoſed, to try if it would go off.

Monday Night about Eight o'Clock, Capt. Holmes, Captain of one of the Tranſports, was attacked by three Footpads at the back Part of the Gun Bowling Green, at Mile End, who robbed him of his Watch, four Guineas, and a Gold laced Hat.

Yeſterday ſe'nnight one Thomas Allen and Thomas Jones, two notorious reputed Pickpockets, were committed to the Gatehouſe Priſon by G. Vaughan, Eſq; on Suſpicion of their having pick'd the Pocket of the Hon. Lieutenant-General St. Clair of a Gold Watch, as he was going into his Coach at Lieceſter Houſe. About Eight o'Clock, about twenty Men, ſuppoſed to be of the ſame Gang, armed with Cutlaſſes and loaded Piſtols, went to the Gatehouſe, and took the Opportunity when the outer Door was opened to fire five Times at the Three Turnkeys and their Aſſiſtants, to reſcue the ſaid two Priſoners; but the Turnkeys and their Aſſiſtants making a ſtout Reſiſtance, they only reſcued and got one away, the other remaining ſafe and chained down to the Floor in a room by himſelf, in the ſame Priſon. The three Turnkeys are all wounded, and two of their Aſſiſtants, that is, one ſtabbed in the Forehead, another run through the Arm, the others almoſt blinded with the Powder flaſhing in their Faces. The Balls miſſed all the People, and went into the Door of the Priſon, and Rails and Wood-work of the Jail. They went off in Triumph, and ſwore they would make a ſecond Viſit with Blunderbuſſes. A Party of Soldiers were ſent for, and ordered by their Officer to keep Guard at the Gatehouſe all Night.

The ſix Smugglers lately committed to the New Jail, Southwark, are ordered to be ſent to Pool, in the County of Dorſet, in order to take their Trials there, for breaking open his Majeſty's Cuſtomhouſe in that Port, in Company with about thirty other Perſons, and carrying away upwards of 1400 lb. of Tea.

Robberies are ſtill as frequent as ever, not a Night paſſes free; it therefore behoves People to be careful how they go out after Dark.

Wedneſday was ſe'nnight two Men were committed to Morpeth Jail, for robbing one of the Pack Horſes from Edinburgh for Newcaſtle, of 13 Pieces of Scots Holland, containing 395 Yards. One of them confeſſed, that the other gave him Three-pence to treat the carriers Lad at a Publick Houſe while the other went forward, drove the Horſe out of the Rood, and robbed it as above.

Wedneſday two Soldiers belonging to the Third Regiment of Foot Guards where whipp'd on the Parade in St. James's Park, and received one Hundred Laſhes each, as Part of their Puniſhment, for being concerned with a Corporal, in robbing the Storehouſe that furniſhes the Guard-Rooms with Coals, for which the Corporal was broke.

We are informed from Brenſet in Kent, that the Houſe of Mr. Wright, a Farmer of that Place, was beſet a few Days ago, by three Fellows with Crapes over their Faces, who robbed him and his Wife, and threatned that if any Alarm was made after their Departure, they would come back and fire the Houſe; but notwithſtanding this Threat, Mr. Wright immediately got ſome of his Neighbours together, and purſued them, and had the good Fortune to take the Principal of them, and carried him before Juſtice Brochman, before whom he made great Diſcoveries, and 'tis ſaid has impeach'd five others, who have been concern'd with him in other Robberies. It is believed that theſe are the Fellows who lately robbed the Rev. Mr. Wentworth.

Thurſday a Perſon went into the Shop of Mr. Philpot, a Grocer in the Strand, pretending to buy ſome Tea, and the Perſon who ſerved behind the Counter turning round to give Change, he went off with a Cannifter that had Ten Pound of Tea in it."

Extract of a Letter from Chicheſter Jan. 20.

" Yeſterday about three Quarters after two o'Clock in the Afternoon, the ſix Smugglers and Murderers were executed at the Brill, about a Mile out of Town. At coming out of the Hall, young Mills talk'd very merily, and ſaid, *We ſhall have a jolly Hang of it*; and at the Place of Execution he ſaid, *It was very hard to be refuſed a Pint of Beer*, which he had aſked for. The Father would have ſmoak'd from the Jail to the Gollows, but was prevented.

" They were attended by a Miniſter from this City, to whoſe Prayers and Exhortations all but the two Mills's gave great Attention, and ſhewed Marks of their Penitence; but the old Man and his Son (who neither kiſſed, ſpoke to, or took the leaſt Notice of each other) ſeem'd quite hardened, and inſenſible of their wretched State.

" Tapner and Carter were very devout, and gave a great deal of good Advice to the Spectators; the former recommended, in a very ſtrong Manner, to the Dragoons and Soldiers who attended the Execution, to be very vigilant in their Endeavours to take one Richards, who he ſaid was one of the worſt of the Gang, and the principal Cauſe of his coming to ſo ſhameful an End.

" Jackſon the ſeventh Criminal, when told that he was to be hang'd in Chains, was ſo terribly frightned, that he died within two Hours afterwards.

" The Bodies of Comby, Hammond, Carter and Tapner were carried back to the Jail, in order to their being hung in Chains, with the Corpſe of Jackſon, as ſoon as the Irons were finiſhed."

In Compliance with a Requeſt made by the Inhabitants of Chicheſter to the Judges, a Regiment of Foot and a Party of Dragoons, are ordered to be quartered there, to prevent any reſentment which may be offered by Friends, and others belonging to the Smugglers.

Extract of a Letter from Newcaſtle Jan. 21.

" The Induſtry, Anderſon, who ſailed from London for Shields on Dec. 15, met next Morning with a Storm, by which he was obliged to put a-back of Yarmouth Sands. Then the Wind changing to N. W. and they ſtretched away to the Northward, all the Way to Buchaneſs, which took them about 14 Days. From thence they drove between Zetland and the Orkneys to Faro Iſlands, in Lat. 61. belonging to Denmark; where the People were civil, but would take no Caſh for Proviſions, only Goods for Goods. When they reached Faro, they had but a Quarter of a Hundred of Bread, 15 Candles, and 30 Gallons of Water on board and no Beer. There they lay 12 Days, and came from thence on Saturday laſt, and arrived at Shields on Thurſday late at Night, having loſt one Man."

SCOTLAND.

Edinburgh Jan. 19. They write from Aberdeen, that the Greenock of Inverkeithing, Roxburgh, from Maryland, with 170 Hogſheds of Tobacco, was laſt Week put aſhore at Cairnbolg. And that an Highlander from Invercauld, was brought in there, and committed to Priſon, for wearing the Philebeg, contrary to Act of Parliament.

Edinburgh, Jan. 21. We are told, the Highlanders, to make up in ſome meaſure the Loſs of the Plaid, Philibeg, &c. have in View to make ſhort Coats and Caps of Goat Skins, which they judge will be a good Preſervation againſt the Cold.

IRELAND.

Dublin, Jan. 17. Laſt Saturday their Excellencies the Lords Juſticies iſſued a Proclamation, offering 100 l. Reward for the Apprehending James Bolger or James Freney, dead or alive, before the 13th of April next, As alſo a Reward of 50 l. for each of the three firſt, who ſhall be convicted of harbouring the ſaid Bolger or Freney.

Laſt Thurſday Hugh Carmichael, Eſq; Clerk of the Crown for the Northen Circuit, and one of the Attornies of his Majeſty's Court of Common-Pleas, was married to Miſs Liſle, of Coleraine in the County of Down, an agreeable young Lady, with 3000 l. Fortune.

Mr. John Urmſton and Mr. Sheagan have agreed with the Rev. Dean and Chapter of St. Patrick's Cathedral, to erect a Spire of 90 Feet high on the Steeple; agreeable to the Will of the late Dr. Stearne, Biſhop of Clogher, which will be a fine Land mark, as well as Ornament to this City.

Dublin, Jan. 10. By a Letter from Portoferry, dated Jan. 1, 1748, we have the following circumſtantial Account of the loſs of the Wolf Sloop of War. That the Ship being overmaſted, was able to carry little or no Sail, when cloſe upon the Wind, and could clear no further than Canary Point where ſhe ſtruck, about 7 o'Clock on Friday Evening: That as ſoon as the Captain found her on a Rock he ordered the Maſts to be cut away, to prevent her roll

ing to Pieces; one of the Masts in its Fall stove their Long Boat; so that they had nothing but their Yawl left, into which the Captain ordered eight Men to go and see if it was the Main Land, or some outlying Rock, and desired them if it was the Main to go all on Shore but one, and make a Light for a Signal, upon which they on Board would haul back the Boat by a Line they had fixed to it, and so if possible convey the Crew by Degrees on Shore. This they could have had Time enough to have done, for the Ship stuck together six Hours, but unfortunately when the Boat came on Shore they sent one Man up the Country to make some discovery, (while the other seven remained in the Boat) and having found some Houses, alarmed them with the News; the People ran all down in a Hurry to assist them if possible, and one of them carrying a Light with him, it was mistaken by the Crew on Board for the Signal, upon which the Boat was immediately drawn towards the Ship, with seven Men in her, and in her Way struck on a Rock, which obliged them to cut the Rope to save their own Lives; she then drove directly to the Shore where the Men landed, but she was broke to Pieces, whereby the remainder lost their Lives, all but seven who were saved by a Piece of the Deck.

The Genuine Acid Juice of

NORWAY TAR.

IS carefully prepared, according to Directions received immediately from Mr. Reid, the Inventor thereof, and Author of a Letter to the Rev. Dr. Hales on that Subject.

ONLY by Alexander Mackenzie at the Jar and Crown in Bishopsgate-street, London.

Beware therefore of Counterfeits, and remember the Man without a Name, who lives in Painter's-Court.

N B. I am authorised, by the Experience of many, whom I have served with this Native Vegetable Acid, to recommend it as a much more pleasant, safe, and efficacious Medicine than common TAR-WATER, as being free from it's nauseous Taste, and noxious Qualities, yet possessed of all the Medical Virtues of Tar, which arise from a just Combination of the Essential Oil, and Native Sacharine Salt of the Vegetable, with the Universal Acid, and Elementary Water. It would look like Quackery to enumerate the several Cases in which it has given Relief: I therefore content myself, with observing, that it has done surprizing Service in Loss of Appetite, bad Digestion, Cholics, Low Spiritedness, desperate Consumptions, Spitting of Blood, and other internal Haemorrhages, Weaknesses of both Sexes, inveterate Scurvies, and especially in that sort called the Sea Scurvy; of which I have lately had some very extraordinary Instances.

Two Tea Spoonfuls in a moderate Glass of Water, make an agreeable Dose, which may be taken twice a Day, Morning and Evening, or oftener; but best at some Distance from Meals. During it's Use Care should be taken to avoid catching Cold, and particularly not to wash with cold Water, for fear of checking Perspiration, or repelling Eruptions.

It is sold for 3 s. 6 d the Half Pint Bottle, with proper Allowances to those who take a Quantity, at

My Shop, the Jar and Crown in Bishopsgate Street, and, by my Appointment, at the following Coffee-Houses, viz.

Mount's, Grosvenor Street;
Union, St James's Street;
Smyrna, Pallmall;

ALEXANDER MACKENZIE.

This Day is publish'd,

The Sixteenth Edition *of*

ONANIA: Or, The Heinous Sin of Self-Pollution and all its frightful Consequences (in both Sexes) considered, with Spiritual and Physical Advice to those who have allready injured themselves by this abominable Practice.

As also the Sixth Edition of the SUPPLEMENT to it, both of them Revised and Enlarged, and now printed together in One Volume.

And as the several Passages in the former Impressions, that have been charged with being obscure and ambiguous, are in these cleared up and explained, there will be no more Alterations or Additions made to them.

These Editions contain some further and surprizing Instances of the Mischiefs by that filthy, sinful Commerce with ones self, which is so notoriously practised, as well by the Adult as Youth, Women as Men, Married as Single, to the weakning their Generative Faculties, and hindering Procreation, as their Letters of Complaint to the Author herein inserted, shew.

And, amongst others, a curious Letter from a Lady, with his Answer to it, concerning the Use and Abuse of the Marriage-Bed; together with divers Casuistical and other Letters from both Sexes, of some secret unnatural Effeminacies, necessary to be known both by the married and single of each Sex.

To which is added,

A Curious PIECE translated out of the Latin, from L S SCHMEDIER, as it is inserted in the Acta Lipsiensia; concerning the Return of the Seed into the Mass of Blood; well worth the Perusal of Physicians, Surgeons, Anatomists, and all others of Art and Curiosity.

As also Dr. QUINCY's Translation of Dr. CARR's remarkable Answer to a Letter sent by a Divine, concerning two Nuns in Rome, reported to have changed their Sex.

Likewise Dr. DRAKE's and several other Physicians Opinions of Hermaphrodites, and Women brought to a Resemblance of them, by the Practice of Self-Pollution, as was the Case of a young Lady of 18, whose well-wrote Letter to the Author, describing and lamenting her Condition, is (in order to deter others) inserted

A very grave and learned Divine and Physician having perused this Discourse, before it went to the Press, returned it with his Opinion of it in these Words

'This little Book ought to be read by all Sorts of People, 'of both Sexes, of what Age, Degree, Profession, or Condition 'soever, guilty or not guilty of the Sin declaimed against in it.'

Is now sold (Mr Isted, Bookseller, at the Golden Ball, in Fleetstreet being dead) by Charles Corbett, Bookseller, at Addison's Head, opposite St. Dunstan's Church, Fleetstreet, and by Henry Cook under the Royal Exchange. Price Bound 2 s. 6 d.

N. B. The Medicines mentioned in this Book are sold as above.

GLEETS and SEMINAL WEAKNESSES,

SO destructive to the Constitution, and ruinous not only to the unhappy Individual labouring under them, by draining away the Radical Moisture or very Essence of Life, and inducing Consumptions, Nervous Disorders, &c. but to Posterity also, inasmuch as those afflicted with such Gleetings, if not wholy disabled, as very many are, from propagating their Species, are yet render'd incapable of begetting any other than puny, miserable, and short-liv'd Issue.

These wasting Gleetings, occasion'd by Self-pollution, excessive Venery, severe Purging for Venereal Injuries, or by violent Strains, &c. and which have been deem'd by almost all Physicians and Surgeons to be so very difficult to overcome, are now so certainly known to be directly, and in a manner at once perfectly cur'd by the Grand Restorative Balsamick Electuary, that no one, how bad soever, need despair of being entirely set to Rights by it in a few Days.

It is from this its most extraordinary Efficacy, that so many Practitioners in Town and Country now send for it for their Patients, as finding it to be the only sure and infallible Remedy that can be safely rely'd upon in those Cases. The Price of this Grand Medicine is 6 s. a Pot, seal'd up, with a Book of Instructions, highly necessary to be read by all Persons whoever were afflicted with any Disorder of the Seminal Vessels or neighbouring Parts.

Note, Mr. Radford is removed from against St. Clement's Church-Yard, to Mr. Eglinton's at the Golden Spectacles against the East-End of the New Church in the Strand, London; where now this fam'd Balsamic Electuary is only to be had. Ask only for a 6 s. Pot of Balsamic Electuary. No Letters answer'd unless Post paid.

For the Venereal Disease.

THE shortest, safe, and regular Cure, this Day in the World, from the slightest Infection to the most inveterate Degree of it, by a Medicine as pleasant to take, and as easy in its Operation as it is effectual in its Cure; so that the unfortunate Patient gets suddenly and surprizingly well, without Diffaste to his Palate, the least Disorder of Body, or any Confinement whatever. This is that great Remedy, now so well known and long experienced to be truly infallible, and is the Grand ANTI-SYPHILICON that Radcliffe and Garth used to say would totally extirpate the Venereal Disease from the Face of the Earth, were it but universally known, and properly taken. Fresh Infections, call'd Claps, with all their cruel attendant Symptoms, it presently cures; and if taken in Time, even prevents their taking Place. It is a safe, gentle, and pleasant Family Purge, even for Children as well as grown Persons, in all Cases where Purging is necessary; nor can the deepest Scurvy, Rheumatism, Gout, Evil, or Leprosy, stand before it, but are pleasantly cured and thoroughly extirpated by it, as well as the highest and most inveterate State of the confirmed Venereal Disease; which, with all its most raging Symptoms, it soon eradicates, restoring Health, Strength, and Vigor to the Body. Those who once take it, will never have Recourse to any Thing else. One Pot in most Cases is sufficient for a Cure.

Price 6 s. a Pot, sealed up with a Book of Instructions, by which all Persons may fully understand their own Condition, and certainly know when, and when not, the Venereal Poison is rooted out of their Bodies. Note, Mr. Radford is removed from against St. Clement's Church Yard, to Mr. Eglinton's at the Golden Spectacles against the East-End of the New Church in the Strand, London, where now this Grand Anti Syphilicon is only to be had. Ask only for a Six Shilling Pot for the Scurvy. No Letters answered unless Post-paid.

The most wonderful cleansing and strengthning Drops for all Sorts of Gleets, and Seminal Weaknesses and Imbecilities of the Generative Parts and Faculties, preventing Miscarriages in Women; and to cleanse and strengthen the Reins, Kidnies and Bladder, cure weak Backs, Stranguries, Gravel, and Stoppage of the Urine, and for which it has gained such Repute, that near 20000 Bottles have been sold since April 1734, that they were first publish'd.

THESE incomparable Drops, which for the aboveland Disorders are not to be equall'd in the whole Art of Medicines were prescrib'd by the late Dr. Ratcliffe, for a certain noble Lord, who for a long Time had been vex'd with an old obstinate Gleet and Weakness, of which he was cured by them in a few Days, beyond all Expectation, after he had been harrass'd with Electuaries, Bolusses, Pills, Potions, Injections, and a hundred other Medicines, for many Months together in vain.

The Apothecary who prepared them for him according to the Doctor's Prescription (which he has still upon his File) has made Use of them ever since to Numbers of People in the very worst of Gleets, seminal and genital Imbecilities and Infertilities, Pains in the Back and Reins, Disorders of the Urine and Gravel, &c. with the utmost Success and Safety; as also in all Weaknesses from Strains, as well as Venereal Reliefs, excessive Coition, Self Pollution, seminal Emissions in Sleep, Falls, Blows, Wrenches, and the like, in both Sexes.

And as they have never once failed him, even in Cases thought to be incurable, he now, for general Good, has made them publick: And that the meaner Sort of People might partake of the Benefit of so divine a Remedy as well as the Rich, he has put them up in Bottles of but 3 s 6 d each, tho' for the Excellency of their Effects they are worth their Weight in Gold, more especially as one Bottle of them generally Cures, even in the most draining Gleets, and grievous Relaxations and Weaknesses of the Seminals and Genitals, as also of the Back and Reins, that are.

Nor can there be prepared, by any Art or Skill, a more cleansing and healing, or a more strengthening and invigorating Medicine, or one that can more effectually cure Impotency, or promote Fertility, than this, as every one that but once tries it will say, by their soon finding the Difference between this and other Remedies; for it will do more in one Day towards restoring in these Weaknesses than any others can in ten, and is so corroborating a Nature that it may be entirely rely'd upon for curing perfectly and firmly, without Fear of Relapse, even in the tenderest Constitutions, which can hardly be said of any other Medicine; and it is withal so elegantly pleasant to the Palate, and so agreeable to the Stomach that the nicest Person is delighted with it.

Mr. West, Goldsmith, who us'd to sell these Drops being dead, they are now Sold only by his Son-in-Law, Mr. Johnson, a Baker, at the Seven Stars, in Vere-street, near Clare-Market, sealed up, with Directions, for any Messenger upon asking only for a Bottle of Drops and paying 3 s 6 d.

As our *State Converts*, late in Occaſion as well as late in Life; for I think one had conſiderably paſs'd his *Grand Climacteric*, before his Virtue could ſurmount the ſtubborn Prejudices of Education, Habit, and Family Attachment: I ſay, our *Converts* were ſo apprehenſive of *learned Ambiguities* in the A*dr*ſs, that they thought none more capable of ſifting them thoroughly than themſelves. Hence the *Two Brothers* were excluded from this profound Diſcuſſion, as it was not a little beyond their Cut; and probably, becauſe the Honour of the Succeſs, if they had been admitted, might have been imputed to the Ingenuity of *Lapis*. The *Converts*, after invoking the Genius of the famous Sir *A B C* of the *Craftſman*, fell to Work; and as that prodigious Sage penetrated into a Diſcovery of Treaſon under the Gilding of Mr. *Ward*'s Pill, our *Converts* found enſnaring Diſaffections lurking in the Crevices of every Phraſe throughout this ſubtile A**s; and a high Affront and Indignity in ſubſtituting Elegance of Language, nervous Senſe, coercive Aſſurances, and high flown Strains of Loyalty to the Perſon of the K*, in the room of courtly Compliments upon the Miniſters of Peace. We ſhall hear more of the happy Diſcoveries made by theſe great *Commiſſioners of Inſpection*, as ſoon as they make their Report; and 'tis hoped it will be a Warning to all future V* C***s, how they become raſcily buſy at El***s, and with impertinent Endeavours attempt to croſs the virtuous Purpoſes of the *Converted* at *B*d*d*.

To addreſs the Throne petitionarily for Redreſs of Grievances, is an undoubted Right of the Subject; and tho' an Addreſs of *Compliment* is only a Matter of Indifference, and may be omitted on one Side, or rejected on the other, without injuring Prerogative or Privilege; yet I think it is highly decent, if not an incumbent Duty, on every loyal Body of Subjects to ſalute their Sovereign with the Knee of Humility and Heart of Gladneſs, on his happy Return among them after ſo long an Abſence. Among all the Addreſſes that have been prefer'd on this laſt Occaſion, I muſt beg Leave to obſerve, that, in my humble Opinion, the *Carmarthen* Addreſs ſtands diſtinguiſhed in the Liſt, for Propriety of Matter, and a plain unadorned Sincerity of Expreſſion ſuitable to the Occaſion.

Lieutenant Lardner is appointed a Captain in Colonel Lee's Regiment of Foot.

On Sunday Evening laſt died, on his Houſe in Serjeants-Inn in Fleet-Street, Matthew Concannon, Eſq; ſome time ſince Attorney General at Jamaica, and Author of ſeveral Pieces of Poetry.

On Wedneſday laſt died, at his Houſe at Hackney, James Lever, Eſq; one of the Directors of the Bank.

Wedneſday Morning died of a violent Fever, after a few Days Illneſs, Mr. Jacob Jacmar, an eminent wholeſale Haberdaſher, in Partnerſhip with Meſſieurs Haſſel and Voizin, in Mitre court in Cheapſide: The Bulk of his Fortune which is very conſiderable, comes to his Brother, Mr. Lewis Jacmar, of the Seal Office in the Temple.

Tueſday Morning died, of the Small-Pox, at his Lodgings at Hammerſmith, Mr. Simon Dainton, a young Gentleman of conſiderable Fortune in Derbyſhire.

We hear that the City of York intends to exhibit ſome very grand Fireworks, on the Proclamation of the general Peace.

Wedneſday the Juſtices met at the Town Hall in the Borough of Southwark, to examine into the Behaviour of the Perſons taken into Cuſtody at the Gaming Tables at Cuper's Bridge; when 17 were bound over to the next Quarter Seſſions of the Peace, for the County of Surry, and the Remainder ordered back to Jail, for Want of Securities.

On Tueſday laſt as ſome Servants belonging to the Right Hon. the Earl of Thanet, was coming up the River in a Hoy, with a large Quantity of Goods, &c. from his Lordſhips Seat at Hothfield in Kent, the Hoy ſunk and the Goods were loſt; but happily the People were all ſaved.

The late high Tides and bad Weather have done incredible Damage to the Shipping and ſmall Craft in the River. A Ship no farther of than Rotherhithe, belonging to Capt. Kelly, of Auſtin-Friars, overſet and ſunk; and ſeveral others forced from their Moorings, and greatly damaged; ſo that the Navigation of the River is greatly interrupted.

Wedneſday Morning about 10 o'Clock, Mr. Drake, a Gun Maker who had many Years kept an Houſe in Glaſs Houſe Yard in the Minories, ſhot himſelf and died immediately. He had eaten an hearty Breakfaſt, ſaying, that he was not indebted to any Man living. Another remarkable Circumſtance is, that on Tueſday Morning, he diſcharged the ſame Piſtol up the Chimney, with an Intent, as was ſuppoſed, to try if it would go off.

Monday Night about Eight o'Clock, Capt. Holmes, Captain of one of the Tranſports, was attacked by three Footpads at the back Part of the Gun Bowling Green, at Mile End, who robbed him of his Watch, four Guineas, and a Gold laced Hat.

Yeſterday ſe'nnight one Thomas Allen and Thomas Jones, two notorious reputed Pickpockets, were committed to the Gatehouſe Priſon by G. Vaughan, Eſq; on Suſpicion of their having pick'd the Pocket of the Hon. Lieutenant-General St. Clair of a Gold Watch, as he was going into his Coach at Lieceſter Houſe. About Eight o'Clock, about twenty Men, ſuppoſed to be of the ſame Gang, armed with Cutlaſſes and loaded Piſtols, went to the Gatehouſe, and took the Opportunity when the outer Door was opened to fire five Times at the Three Turnkeys and their Aſſiſtants, to reſcue the ſaid two Priſoners; but the Turnkeys and their Aſſiſtants making a ſtout Reſiſtance, they only reſcued and got one away, the other remaining ſafe and chained down to the Floor in a room by himſelf, in the ſame Priſon. The three Turnkeys are all wounded, and two of their Aſſiſtants, that is, one ſtabbed in the Forehead, another run through the Arm, the others almoſt blinded with the Powder flaſhing in their Faces. The Balls miſſed all the People, and went into the Door of the Priſon, and Rails and Wood-work of the Jail. They went off in Triumph, and ſwore they would make a ſecond Viſit with Blunderbuſſes. A Party of Soldiers were ſent for, and ordered by their Officer to keep Guard at the Gatehouſe all Night.

The ſix Smugglers lately committed to the New Jail, Southwark, are ordered to be ſent to Pool, in the County of Dorſet, in order to take their Trials there, for breaking open his Majeſty's Cuſtomhouſe in that Port, in Company with about thirty other Perſons, and carrying away upwards of 1400 lb. of Tea.

Robberies are ſtill as frequent as ever, not a Night paſſes free; it therefore behoves People to be careful how they go out after Dark.

Wedneſday was ſe'nnight two Men were committed to Morpeth Jail, for robbing one of the Pack Horſes from Edinburgh for Newcaſtle, of 13 Pieces of Scots Holland, containing 395 Yards. One of them confeſſed, that the other gave him Three-pence to treat the carriers Lad at a Publick Houſe while the other went forward, drove the Horſe out of the Rood, and robbed it as above.

Wedneſday two Soldiers belonging to the Third Regiment of Foot Guards where whipp'd on the Parade in St. James's Park, and received one Hundred Laſhes each, as Part of their Puniſhment, for being concerned with a Corporal, in robbing the Storehouſe that furniſhes the Guard-Rooms with Coals, for which the Corporal was broke.

We are informed from Brenſet in Kent, that the Houſe of Mr. Wright, a Farmer of that Place, was beſet a few Days ago, by three Fellows with Crapes over their Faces, who robbed him and his Wife, and threatned that if any Alarm was made after their Departure, they would come back and fire the Houſe; but notwithſtanding this Threat, Mr. Wright immediately got ſome of his Neighbours together, and purſued them, and had the good Fortune to take the Principal of them, and carried him before Juſtice Brochman, before whom he made great Diſcoveries, and 'tis ſaid has impeach'd five others, who have been concern'd with him in other Robberies. It is believed that theſe are the Fellows who lately robbed the Rev. Mr. Wentworth.

Thurſday a Perſon went into the Shop of Mr. Philpot, a Grocer in the Strand, pretending to buy ſome Tea, and the Perſon who ſerved behind the Counter turning round to give Change, he went off with a Canniſter that had Ten Pound of Tea in it.

Extract of a Letter from Chicheſter Jan. 20.

"Yeſterday about three Quarters after two o'Clock in the Afternoon, the ſix Smugglers and Murderers were executed at the Brill, about a Mile out of Town. At coming out of the Hall, young Mills talk'd very merily, and ſaid, *We ſhall have a jolly Hang of it*; and at the Place of Execution he ſaid, *It was very hard to be refuſed a Pint of Beer*, which he had aſked for. The Father would have ſmoak'd from the Jail to the Gollows, but was prevented.

"They were attended by a Miniſter from this City, to whoſe Prayers and Exhortations all but the two Mills's gave great Attention, and ſhewed Marks of their Penitence; but the old Man and his Son (who neither kiſſed, ſpoke to, or took the leaſt Notice of each other) ſeem'd quite hardened, and inſenſible of their wretched State.

"Tapner and Carter were very devout, and gave a great deal of good Advice to the Spectators; the former recommended, in a very ſtrong Manner, to the Dragoons and Soldiers who attended the Execution, to be very vigilant in their Endeavours to take one Richards, who he ſaid was one of the worſt of the Gang, and the principal Cauſe of his coming to ſo ſhameful an End.

"Jackſon the ſeventh Criminal, when told that he was to be hang'd in Chains, was ſo terribly frightned, that he died within two Hours afterwards.

"The Bodies of Comby, Hammond, Carter and Tapner were carried back to the Jail, in order to their being hung in Chains, with the Corpſe of Jackſon, as ſoon as the Irons were finiſhed."

In Compliance with a Requeſt made by the Inhabitants of Chicheſter to the Judges, a Regiment of Foot and a Party of Dragoons, are ordered to be quartered there, to prevent any reſentment which may be offered by Friends, and others belonging to the Smugglers.

Extract of a Letter from Newcaſtle Jan. 21.

"The Induſtry, Anderſon, who ſailed from London for Shields on Dec. 15, met next Morning with a Storm, by which he was obliged to put a-back of Yarmouth Sands. Then the Wind changing to N. W. and they ſtretched away to the Northward, all the Way to Buchaneſs, which took them about 14 Days. From thence they drove between Zetland and the Orkneys to Faro Iſlands, in Lat. 61. belonging to Denmark; where the People were civil, but would take no Caſh for Proviſions, only Goods for Goods. When they reached Faro, they had but a Quarter of a Hundred of Bread, 15 Candles, and 30 Gallons of Water on board and no Beer. There they lay 12 Days, and came from thence on Saturday laſt, and arrived at Shields on Thurſday late at Night, having loſt one Man."

SCOTLAND.

Edinburgh Jan. 19. They write from Aberdeen, that the Greenock of Inverkeithing, Roxburgh, from Maryland, with 170 Hogſheds of Tobacco, was laſt Week put aſhore at Cairnbolg. And that an Highlander from Invercauld, was brought in there, and committed to Priſon, for wearing the Philebeg, contrary to Act of Parliament.

Edinburgh, Jan. 21. We are told, the Highlanders, to make up in ſome meaſure the Loſs of the Plaid, Philibeg, &c. have in View to make ſhort Coats and Caps of Goat Skins, which they judge will be a good Preſervation againſt the Cold.

IRELAND.

Dublin, Jan. 17. Laſt Saturday their Excellencies the Lords Juſticies iſſued a Proclamation, offering 100 l. Reward for the Apprehending James Bolger or James Freney, dead or alive, before the 13th of April next, As alſo a Reward of 50 l. for each of the three firſt, who ſhall be convicted of harbouring the ſaid Bolger or Freney.

Laſt Thurſday Hugh Carmichael, Eſq; Clerk of the Crown for the Northen Circuit, and one of the Attornies of his Majeſty's Court of Common-Pleas, was married to Miſs Liſle, of Coleraine in the County of Down, an agreeable young Lady, with 3000 l. Fortune.

Mr. John Urmſton and Mr. Sheagan have agreed with the Rev. Dean and Chapter of St. Patrick's Cathedral, to erect a Spire of 90 Feet high on the Steeple; agreeable to the Will of the late Dr. Stearne, Biſhop of Clogher, which will be a fine Land mark, as well as Ornament to this City.

Dublin, Jan. 10. By a Letter from Portoferry, dated Jan. 1, 1748, we have the following circumſtantial Account of the loſs of the Wolf Sloop of War. That the Ship being overmaſted, was able to carry little or no Sail, when cloſe upon the Wind, and could clear no further than Cinary Point where ſhe ſtruck, about 7 o'Clock on Friday Evening: That as ſoon as the Captain found her on a Rock he ordered the Maſts to be cut away, to prevent her ro

ing to Pieces; one of the Masts in its Fall stove their Long Boat; so that they had nothing but their Yawl left, into which the Captain ordered eight Men to go and see if it was the Main Land, or some outlying Rock, and desired them if it was the Main to go all on Shore but one, and make a Light for a Signal, upon which they on Board would haul back the Boat by a Line they had fixed to it, and so if possible convey the Crew by Degrees on Shore. This they could have had Time enough to have done, for the Ship stuck together six Hours, but unfortunately when the Boat came on Shore they sent one Man up the Country to make some discovery, (while the other seven remained in the Boat) and having found some Houses, alarmed them with the News; the People ran all down in a Hurry to assist them if possible, and one of them carrying a Light with him, it was mistaken by the Crew on Board for the Signal, upon which the Boat was immediately drawn towards the Ship, with seven Men in her, and in her Way struck on a Rock, which obliged them to cut the Rope to save their own Lives; she then drove directly to the Shore where the Men landed, but she was broke to Pieces, whereby the remainder lost their Lives, all but seven who were saved by a Piece of the Deck.

The Genuine Acid Juice of

NORWAY TAR.

IS carefully prepared, according to Directions received immediately from Mr. Reid, the Inventor thereof, and Author of a Letter to the Rev. Dr. Hales on that Subject,

ONLY by Alexander Mackenzie at the Jar and Crown in Bishopsgate-street, London.

Beware therefore of Counterfeits, and remember the Man without a Name, who lives in Painters-Court.

N. B. I am authorised, by the Experience of many, whom I have served with this Native Vegetable Acid, to recommend it as a much more pleasant, safe, and efficacious Medicine than common TAR-WATER; as being free from it's nauseous Taste, and noxious Qualities, yet possessed of all the Medical Virtues of Tar, which arise from a just Combination of the Essential Oil, and Native Sacharine Salt of the Vegetable, with the Universal Acid, and Elementary Water. It would look like Quackery to enumerate the several Cases in which it has given Relief: I therefore content myself, with observing, that it has done surprizing Service in Loss of Appetite, bad Digestion, Cholics, Low Spiritedness, desperate Consumptions, Spitting of Blood, and other internal Haemorrhages, Weaknesses of both Sexes, inveterate Scurvies, and especially in that sort called the *Sea Scurvy*; of which I have lately had some very extraordinary Instances.

Two Tea Spoonfuls in a moderate Glass of Water, make an agreeable Dose, which may be taken twice a Day, Morning and Evening, or oftener; but best at some Distance from Meals. During it's Use Care should be taken to avoid catching Cold, and particularly not to wash with cold Water, for fear of checking Perspiration, or repelling Eruptions.

It is sold for 3 s. 6 d the Half Pint Bottle, with proper Allowances to those who take a Quantity, at

My Shop, the Jar and Crown in Bishopsgate Street, and, by my Appointment, at the following Coffee-Houses, viz.

ONANIA: Or, The Heinous Sin of Self-Pollution and all its frightful Consequences (in both Sexes) considered; with Spiritual and Physical Advice to those who have already injured themselves by this abominable Practice.

As also the Sixth Edition of the SUPPLEMENT to it, both of them Revised and Enlarged, and now printed together in One Volume.

And as the several Passages in the former Impressions, that have been charged with being obscure and ambiguous, are in these cleared up and explained, there will be no more Alterations or Additions made to them.

These Editions contain some further and surprizing Instances of the Mischiefs by that filthy, sinful Commerce with oneself, which is so notoriously practised, as well by the Adult as Youth, Women as Men, Married as Single, to the weakning their Generative Faculties, and hindering Procreation, as their Letters of Complaint to the Author herein inserted, shew.

And, amongst others, a curious Letter from a Lady, with his Answer to it, concerning the Use and Abuse of the Marriage-Bed; together with divers Casuistical and other Letters from both Sexes, of some secret unnatural Effeminacies, necessary to be known both by the married and single of each Sex.

To which is added,

A Curious PIECE translated out of the Latin, from L. S. SCHMEDIER, as it is inserted in the Acta Lipsiensia; concerning the Return of the Seed into the Mass of Blood; well worth the Perusal of Physicians, Surgeons, Anatomists, and all others of Art and Curiosity.

As also Dr. QUINCY's Translation of Dr. CARR's remarkable Answer to a Letter sent by a Divine, concerning two Nuns in Rome, reported to have changed their Sex.

Likewise Dr. DRAKE's and several other Physicians Opinions of Hermaphrodites, and Women brought to a Resemblance of them, by the Practice of Self-Pollution, as was the Case of a young Lady of 18, whose well-wrote Letter to the Author, describing and lamenting her Condition, is (in order to deter others) inserted

A very grave and learned Divine and Physician having perused this Discourse, before it went to the Press, returned it with his Opinion of it in these Words

'This little Book ought to be read by all Sorts of People, 'of both Sexes, of what Age, Degree, Profession, or Condition 'soever, guilty or not guilty of the Sin declaimed against in it.'

Is now sold (Mr Isted, Bookseller, at the Golden Ball, in Fleetstreet being dead) by Charles Corbett, Bookseller, at Addison's Head, opposite St. Dunstan's Church, Fleetstreet, and by Henry Cook under the Royal Exchange. Price Bound 3 s. 6 d.

N. B. The Medicines mentioned in this Book are sold as above.

GLEETS and SEMINAL WEAKNESSES,

SO destructive to the Constitution, and ruinous not only to the unhappy Individual labouring under them, by draining away the Radical Moisture or very Essence of Life, and inducing Consumptions, Nervous Disorders, &c. but to Posterity also, inasmuch as those afflicted with such Gleetings, if not wholy disabled, as very many are, from propagating their Species, are yet render'd incapable of begetting any other than puny, miserable, and short-liv'd Issue.

These wasting Gleetings, occasion'd by Self-pollution, excessive Venery, severe Purging for Venereal Injuries, or by violent Strains, &c. and which have been deem'd by almost all Physicians and Surgeons to be so very difficult to overcome, are now so certainly known to be directly, and in a manner at once perfectly cur'd by the Grand Restrictive Balsamick Electuary, that no one, how bad soever, need despair of being entirely set to Rights by it in a few Days.

It is from this its most extraordinary Efficacy, that so many Practitioners in Town and Country now send for it for their Patients, as finding it to be the only sure and infallible Remedy that can be safely rely'd upon in those Cases. The Price of this Grand Medicine is 6 s. a Pot, seal'd up, with a Book of Instructions, highly necessary to be read by all Persons whoever were afflicted with any Disorder of the Seminal Vessels or neighbouring Parts.

Note, Mr. Radford is removed from against St. Clement's Church-Yard, to Mr. Eglinton's at the Golden Spectacles against the East-End of the New Church in the Strand, London; where now this fam'd Balsamic Electuary is only to be had. Ask only for a 6 s. Pot of Balsamic Electuary. No Letters answer'd unless Post paid.

For the Venereal Disease.

THE shortest, safe, and regular Cure, this Day in the World, from the slightest Infection to the most inveterate Degree of it, by a Medicine as pleasant to take, and as easy in its Operation as it is effectual in its Cure; so that the unfortunate Patient gets suddenly and surprizingly well, without Diffatte to his Palate, the least Disorder of Body, or any Confinement whatever. This is that great Remedy, now so well known and long experienced to be truly infallible, and is the Grand ANTI-SYPHILICON that Radcliffe and Garth used to say would totally extirpate the Venereal Disease from the Face of the Earth, were it but universally known, and properly taken. Fresh Infections, call'd Claps, with all their cruel attendant Symptoms, it presently cures; and if taken in Time, even prevents their taking Place. It is a safe, gentle, and pleasant Family Purge, even for Children as well as grown Persons, in all Cases where Purging is necessary; nor can the deepest Scurvy, Rheumatism, Gout, Evil, or Leprosy, stand before it, but are pleasantly cured and thoroughly extirpated by it, as well as the highest and most inveterate State of the confirmed Venereal Disease; which, with all its most raging Symptoms, it soon eradicates, restoring Health, Strength, and Vigor to the Body. Those who once take it, will never have Recourse to any Thing else. One Pot in most Cases is sufficient for a Cure.

Price 6 s. a Pot, sealed up with a Book of Instructions, by which all Persons may fully understand their own Condition, and certainly know when, and when not, the Venereal Poison is rooted out of their Bodies. Note, Mr. Radford is removed from against St. Clement's Church Yard, to Mr. Eglinton's at the Golden Spectacles against the East-End of the New Church in the Strand, London, where now this Grand Anti Syphilicon is only to be had. Ask only for a Six Shilling Pot for the Scurvy. No Letters answered unless Post-paid.

The most wonderful cleansing and strengthning Drops for all Sorts of Gleets, and Seminal Weaknesses and Imbecilities of the Generative Parts and Faculties, preventing Miscarriages in Women; and to cleanse and strengthen the Reins, Kidnies and Bladder, cure weak Backs, Stranguries, Gravel, and Stoppage of the Urine, and for which it has gained such Repute, that near 20000 Bottles have been sold since April 1734, that they were first publish'd.

THESE incomparable Drops, which for the abovesaid Disorders are not to be equall'd in the whole Art of Medicine, were prescribed by the late Dr. Ratcliffe, for a certain noble Lord, who for a long Time had been vex'd with an old inveterate Gleet and Weakness, of which he was cured by them in a few Days, beyond all Expectation, after he had been harrass'd with Electuaries, Bolusses, Pills, Potions, Injections, and a hundred other Medicines, for many Months together in vain.

The Apothecary who prepared them for him according to the Doctor's Prescription (which he has still upon his File) has made Use of them ever since to Numbers of People in the very worst of Gleets, seminal and genital Imbecilities and Infertilities, Pains in the Back and Reins, Disorders of the Urine and Gravel, &c. with the utmost Success and Safety; as also in all Weaknesses from Strains, as well as Venereal Relicts, excessive Coition, Self Pollution, seminal Emissions in Sleep, Falls, Blows, Wrenches, and the like, in both Sexes.

And as they have never once failed him, even in Cases thought to be incurable, he now, for general Good, has made them publick: And that the meaner Sort of People might partake of the Benefit of so divine a Remedy as well as the Rich, he has put them up in Bottles of but 3 s 6 d each, tho' for the Excellency of their Effects they are worth their Weight in Gold, more especially as one Bottle of them generally Cures, even in the most draining Gleets, and grievous Relaxations and Weaknesses of the Seminals and Genitals, as also of the Back and Reins, that are.

Nor can there be prepared, by any Art or Skill, a more cleansing and healing, or a more strengthening and invigorating Medicine, or one that can more effectually cure Impotency, or promote Fertility, than this, as every one that but once tries it will say, by their soon finding the Difference between this and other Remedies; for it will do more in one Day towards restoring in these Weaknesses than any others can in ten, and is of so corroborating a Nature that it may be entirely rely'd upon for curing perfectly and firmly, without Fear of Relapse, even in the tenderest Constitutions, which can hardly be said of any other Medicine; and it is withal so elegantly pleasant to the Palate, and so agreeable to the Stomach that the nicest Person is delighted with it.

Mr. West, Goldsmith, who us'd to sell these Drops being dead, they are now Sold only by his Son-in-Law, Mr. Johnson, a Baker, at the Seven Stars, in Vere-street, near Clare-Market, sealed up, with Directions, for any Messenger upon asking only for a Bottle of Drops and paying 3 s 6 d.

ANTI-SIPHYLICON.

THE only short and most infallible CURE in the Universe for the *Venereal Disease* from the slightest Infection to the most extreme and deplorable Degree of it, even when the Blood and Juices are thoroughly contaminated with its malignant *Virus*, and the very Bones are affected with it.

Fresh Infections, call'd Claps, with all their attendant Symptoms, tho' ever so severe, are entirely carried off by it in a few Days, and so as effectually to prevent the Blood and Juices from being tainted with any remaining Relicks, on one Hand, or a seminal Gleet, or Weakness, to happen on the other.

And the most inveterate Degree of the *French Illness*, attended with nocturnal Pains, universal Breakings-out, and all other the most exasperated Symptoms, are soon overcome by it, and effectually and much more safely cured than by Salivation, Inunctions, or any other Method whatever, and in so easy and pleasant a Manner, without impairing Strength, or occasioning any Inconvenience, as loudly to bespeak it the only apposite Remedy, or true *Venereal Antidote* in the World, and this tome Thousands have, to their great Joy, experienced.

It is pleasant to take, occasions no Sickness or Disorder, nor requires Confinement, but may be taken, and the Cure be accomplished, without the Knowledge of the nearest Friend.

Those who suspect they have received an Injury may, by only a Dose or two of it, be perfectly freed from all Apprehensions; for it suffers no lurking Venom to lie hid in the Body, but wholly extirpates it, Root and Branch, in a gentle, easy, and effectual Manner.

All such, likewise, as doubt they have some remaining Relicks of former Injuries, may, by a few Doses of it, entirely free themselves from all Suspicions of that Kind; for it admits of no Foulness, Corruption, or Putrefaction whatever, to remain in the Fluids, or to adhere to the Solids; and, on that Account, in all Scorbutick, Scrophulous, and even Leprous Eruptions, or Foulnesses of the Skin, or glandulous Swellings, and Impurities of the Juices, it does more by one Dose than any other Medicine, yet known, can by ten.

The Price of this most noble *Anti-Siphylicon* is but six Shillings a Pot, which, considering its extraordinary Efficacy, one Pot only being sufficient, in most Cases, to accomplish the Cure, is not a tenth Part of its Value; and is ready sealed up, with a Book of Instructions, by the Perusal of which all Persons who were ever affected with any Degree of the *Venereal Disease* may perfectly understand their own Condition, and certainly know when, and when not, the *Venereal Poison* is entirely rooted out of their Bodies.

Note, Mr. Radford is removed from against St. Clement's Church-yard, to Mr. Eglinton's at the Golden Spectacles against the East-End of the New Church in the Strand, London, where now the Grand Anti-Siphylicon is only to be had. *Ask only for a Six Shilling Pot for the Scurvy. No Letters answer'd, unless Post-paid.*

The only short and infallible Cure for that reigning Disease the SCURVY, *and all Scorbutick Humours, tho' arrived in the highest or most inveterate Degree, or of ever so many Years standing, and that without any sensible Evacuation, or the least Purging, which, by an unaccountable Mistake, is generally advised, altho' always found rather to encrease and confirm the Scurvy than cure it.*

By the so much fam'd and most pleasant Chymical DROPS.

WHICH, without the least Trouble, Confinement, or any Disorder whatever, dost once strike at the true Cause of the Scurvy and entirely destroy it, and all Scorbutick Humors and Effects, Root and Branch, so as never to return again, so many Thousands of both Sexes have experienced, and as all who take them in Three Days Time are convinced; for they almost instantly alter the morbid State of the Juices, purify the Blood, sweeten all the Fluids, cleanse them from Impurities, and directly clear the whole Habit from all Spots, Blotches, black and blue Marks, Itchings, foul Eruptions or Breakings out, Weakness of the Limbs, languid Heaviness of the whole Body, wandering Pains, Weakness of the Back, and all the vast Variety of Symptoms by which the Scurvy imitates and often lies conceal'd under the Appearance of the Rheumatism, and many other Distempers.

And for strengthening the Stomach, immediately creating a good Appetite, causing a regular and easy Digestion of Food, and curing all windy Effects and Disorders of the first Passages, (whence proceed Head-Achs, Vapours and other Indispositions) no Bitters, nor any other Medicine upon Earth can compete with them, insomuch that besides infallibly curing the Scurvy in all its Shapes and Appearances they assuredly and directly cure the Green-Sickness in Virgins, Worms of all Kinds, in Young or Old, and almost all other Chronick Diseases, which are chiefly occasioned by Indigestion and flatulent Crudities in the Stomach and Bowels) and certainly prevent Fevers, Agues, and other acute Illnesses.

They are wonderfully Cordial and Reparative, strengthen and enliven the whole Machine, and as long as taken, make the Patient pleasantly lightsome, brisk and vigorous to Admiration, and are good for all Sorts of Persons, to preserve as well as to procure a sound and healthful State of Body.

But the great Reputation this so much fam'd and most pleasant Chymical DROPS have so universally gain'd among Persons of Eminence, for their suddenly and infallibly curing the Scurvy and all Scorbutick Humors, and other Chronick Diseases in such an easy and agreeable Manner, have occasioned many to imitate them, some under the same, and others under other Names; be careful therefore not to be deceived, but be sure to have the Right, which, by the Author's special Appointment, are to be had, only at the Gentlewoman's at the two blue Posts in Haydon Yard to the Minories, at 3s. 6d a Bottle, with Directions.

This Day is publish'd,

The Seventh Edition (*wherein is inserted a Method of instantly curing the most torturing Fits of the Cramp without Trouble, or the taking or using any Medicine, or being at any Expence whatever*) *with some very material Additions, of*

A Treatise of the Diseases of the HEAD, BRAIN, and NERVES, more especially of the Palsy, Appoplexy, Lethargy, Epilepsy, Convulsions, Cramp, Frenzy, Vertigo, Megrim, inveterate Head-ach, &c. with Directions for their thorough Cure, and how these and many other deplorable Nervous Distempers may be assuredly prevented, as well as certainly cur'd, and consequently many Lives saved by the Medicines therein, in English, prescribed, without the least Reserve.

To which is subjoined,

A Discourse of MELANCHOLY in Men, and VAPOURS in Women; explaining the whole Train of Symptoms, various Degrees, and real Cause of those wretched Maladies; and discovering a short and most certain Method of Cure, by safe and easy Remedies therein also candidly prescribed, and by which Persons of either Sex, who are unhappily affected with Melancholy or Vapours, may absolutely cure themselves of those pernicious Distempers in a short Time, without any Fatigue or Disorder. By a Physician.

The So-much Fam'd HYPO-DROPS.

WHICH in a few Days infallibly cure *Hypochondriack Melancholy* in Men, and the *Vapours* in *Women*, so as never to return again, be they ever so severe, or of many Years standing, and even after all other Remedies have prov'd ineffectual, and that by immediately striking at the very Root or true Cause, as well as remedying the Effects, of those perplexing Maladies and all their Variety of Symptoms, by which they mimick, by Turns, almost all the Diseases poor Mortals are afflicted with, and have their Rise from a depraved Appetite, vicious Ferment in the Stomach, and Indigestion of Food, whence proceed Crudities and flatulent or windy Disorders in the first Passages, ill Fumes, sour Belchings, Cholick, and Uneasiness in the Bowels, which Crudities offend the Nerves, and, by Consent of Parts, affect the Head, and produce sometimes Giddiness, Dimness of Sight, confused Thoughts, pertinacious Watchings, troublesome Sleep, Frights, groundless Fears, and the deepest Melancholy, with direful Views and terrible Apprehensions; at other times, Fits, flushing Heats, Reachings, Faintness, Lowness and Sinking of Spirits, and Palpitation of the Heart, Startings, Tremblings and Twitchings in the Limbs and other Parts, with many convulsive Disorders, sharp Pains, fix'd or wandering, Pain and Weakness in the Back, and other almost innumerable and grievous Symptoms, which miserably afflict vast Numbers of both Sexes.

All which Symptoms in their sharpest Paroxysms, these so much fam'd and most pleasant Drops, (which are Chymically prepar'd from the most valuable Specificks in the Mineral, Vegetable, and Animal Kingdoms, and exalted to the highest Degree of Perfection possible) instantly quell, and at the same time annihilate their real Cause, directly bringing the Stomach into right Order, creating a good Appetite, rectifying the Digestion, occasioning laudable Chyle, and, of course, good Blood, Plenty of calm, free, and cheerful Spirits, a regular Circulation of all the Fluids, and Strength of Nerves; so that both Cause and Effects of Melancholy and Vapours, are thoroughly removed by them, almost on the Spot, as the many Thousands of both Sexes they have perfectly cured, evince.

Whoever takes them for three Days only, will be sensible they are absolutely to be depended upon for an effectual and lasting Cure, and certain it is, that no Medicine upon Earth can equal them; be careful therefore to have the right Drops, which are to be had only at Mrs. Holt's, at the Cross-Keys and Star below the Royal Exchange in Cornhill, at 3s. 6d. a Bottle, with Directions, at large.

Concerning Gleets and Seminal Weaknesses of all Kinds.

ALL judicious Physicians and Surgeons allow, *that nothing is more difficult to cure than Stubborn Gleets and Seminal Weaknesses whether occasion'd by too severe purging for Venereal Injuries, violent Strains, Pollutions, or any other Cause whatever; and that they are dangerous in their Consequences, as well as difficult to cure, is as certain since they exceedingly weaken the Generative Faculties, infeeble the whole Nervous System, often bring on Hectick Heats, a Tabes Dorsalis, or Consumpton of the Back, or an Atrophy or Nervous Consumption which frequently terminate in Death itself.*

All such therefore who have the Misfortune to be troubled with Old Stubborn Gleets, Seminal Effusions, Involuntary Emissions, excessive Nocturnal Pollutions, or any Weakness of the Kidneys, Ureters, or Bladder, the Diabetis, Incontinency of Urine, or Difficulty of holding their Water, would doubtless be glad to meet with a certain, safe and speedy Cure, which they most assuredly may, by the taking only a small Quantity of a transcendent Balsamick Restrictive Electuary, now published for a general Good, after having for many Years in private Practice been experienced never once to fail perfectly curing the most Stubborn Gleets known, in a few Days, without Difficulty or Trouble; as also all other Weaknesses of the Back, Reins, Seminal Vessels and Urinary Passages, which it almost instantly cures, bringing to rights and restoring all those Parts and Passages to their natural Tone and pristine Vigour, in a very extraordinary Manner, and by taking a few Doses of it only.

This transcendent Balsamick Restrictive Electuary is neither disagreeable to take, nor occasions the least Disorder, but is a wonderful Restorative in all Weaknesses and Decay of Constitution of any Kind, and particularly strengthens the Back, Reins, Seminal and Urinary Vessels, in an immense Degree, insomuch that in any Debility of them, one Dose of it does more than ten of any other Remedy yet found out; and all Persons fatigued with Gleets or Seminal Weaknesses of any Sort, or Weaknesses of the Urinary Vessels, who take it, will in three Days time find it so very effectual, that they will be most agreeably surprised at it.

When a Medicine will infallibly accomplish such a safe, speedy and perfect Cure of such difficult Maladies, as Gleets and Seminal Weaknesses are, as this Great Remedy truly and directly will, even after all other Means and Medicines have been try'd in vain; too much cannot be said in Praise of it, and this all who ever took it for any of the above-mention'd Purposes, have readily declared.

The Price is but 6s. a Pot, altho' for its absolute Efficacy, one Pot alone being sufficient in most Cases to accomplish a Cure, worth ten times as much, and is ready sealed up, with a Book of Instructions, which whomsoever carefully reads will be complete Master of his own Case, and perfectly know, when the Gleet or Weakness he is afflicted with succeeds a Venereal Injury, whether all the Malignity of the foul Disease is intirely extirpated or not.

Note, Mr. Radford is removed from against St. Clement's Church-Yard, to Mr. Eglinton's at the Golden Spectacles, against the East-End of the New-Church in the Strand, London, where now this Balsamic Electuary is only to be had. Ask only for a 6s. Pot of Balsamick Electuary. No Letters answer'd, unless Post-paid.

To Persons of either Sex,

Afflicted with any Species of the PALSY, *or other* Nervous Decays,

NEVER were NERVOUS DISEASES, PALSIES, and PARALYTICK DISORDERS so frequent as of late they have been, nor have the usual Remedies been found adequate to those pertinacious Distempers: This occasioned a Physician, who employed his Thoughts much concerning them, to adapt a Medicine, a Sovereign Elixir peculiar to, and effectual for, the Palsy, and all other Nervous Complaints now reigning, which, after he had experienced on vast Numbers of Persons of both Sexes, and always with surprizing Success even so as infallibly to cure by it the Palsy, and all Paralytick Effects and Nervous Disorders, he permitted it to be made publick for a general Good, that so those labouring under these miserable Ailments might know where to meet with a safe and most certain Cure, which it accomplishes in so short a Time, and with such Ease and Pleasure (a few Drops of it being a Dose, highly agreeable to the Palate, and comforting to the Stomach and Bowels) as is almost incredible to relate.

But the taking one Bottle of it only demonstrates its prodigious Efficacy to every one, and the Patients soon finds all Numbness, Deadness, and shaking, or Resolution of the Nerves, as well as all convulsive, cramp-like, or painful Contractions of them, vanish and return no more, and this, though these Diseases have been of many Years standing, and whether occasioned by long Illness, fast Living, hard drinking, or any other Cause; for it performs all that can be wished for in Nervous Cases, creates an Appetite, expells Wind, rectifies the Digestion, occasions laudable Chyle, attenuates the Blood and Juices, causes a free and regular Circulation of 'em thro' the Capillary Vessels, revives and increases the Spirits, warms, comforts, strengthens, and replenishes the Brain and whole Nervous System, hence the Sinews, Tendons, Ligaments, and all the enfeebled Parts are invigorated, the Limbs restored to their pristine Steadiness and Strength, and the Palsy and all Paralytick Disorders and Nervous Decays suddenly cured by it, to the Admiration of the Patients themselves, and all about them.

This sovereign and incomparable Elixir is permitted to be sold only at Mrs. Holt's, at the Cross Keys and Star below the Royal Exchange in Cornhill, London, at 3s. 6d. a Bottle, with printed Directions at large.
